DEEMAXX BENEFITS:

- DEEMAXX Exclusive MAXX COATING on Caliper passed Salt Spray Test per ASTM-B-117-09 over 1008 hrs with no RUST!
- DEEMAXX Exclusive 120° Bleeder design means better bleeding, balanced system, and no more damaged bleeders!
- DEEMAXX Exclusive Laser writing on caliper means instructions are always there!
- DEEMAXX Exclusive Bolt design means no more mishandling or incorrect shipping of bolts!
- DEEMAXX Exclusive Reverse Mount Slip Over Rotor means cooler running, better plating, and no more premature corrosion!
- DEEMAXX LIMITED LIFETIME WARRANTY Ceramic Brake Pads are slotted, chamfered, and have a Stainless Steel Clip.
- DEEMAXX Equals better stopping, longer life and corrosion protection.
- DEEMAXX Solid/Rigid Ductile Iron Casting eliminates flexing and gives you more Brake Torque!
- DEEMAXX Bracket design gives you twice as many mounting options for your caliper position!
- DEEMAXX Uses only ISO QUALITY Certified Factories!

* DEEMAXX PASSED THE SAE J2681 BRAKE TEST! SAE International*

Innovation Starts Here!
Dual Seal MAXX Caliper Design Prevents Piston Freeze

Available in MAXX COATING or STAINLESS STEEL 3,500lb to 10,000lb Slip Over or Integral.

This unique rotor cross section design actively draws cooling air from the rotor interior.

Warranty:
6yr Stainless Steel
3yr MAXX COATING and LIMITED LIFETIME BRAKE PADS
